Foreword

For you, the new students of the University of Maryland, this book is published. This M Book will be the first link with the many activities into which you will pour your efforts, but it should not be your last. This university which you are about to enter ranks near the top in many ways. It needs your help, as conscientious, loyal students, to keep it there, and in helping your university, you will gain personally.

Never forget that college is an opportunity for you to better equip yourself for the life you must lead after you leave. To do this, aim to strike a balance between scholarship and extracurricular activities. Work hard and do everything you can in whatever you undertake, and in return a bounty of scholastic, social and practical education will be yours.

General Information

ACADEMIC

Classes are of 50 minutes duration, beginning on the hour. Students are required to wait 20 minutes for Deans, 15 minutes for Doctors and 10 minutes for all instructors, before dismissing themselves.

The requirements for class attendance are in the discretion of the individual instructor but no student is allowed any automatic cuts. Students with excessive absence from any course will be reported to the President or to his appointed representative for final disciplinary action.

A student desiring to drop a course may do so only before the designated date (generally six to eight weeks after the beginning of school; the date will be announced in the *Diamondback*) and then only with permission from his Dean.

If an exam is missed a make-up exam may usually be taken with the permission of the instructor and the payment of a \$1.00 fee.

A student must receive a passing grade in at least one-half of the credit hours for which he or she is registered in order to stay in school. An average of C or better is required for Junior standing and for eligibility for any major position on publications and for any class office.

These regulations are from the Academic Regulations which are published by the University. All students should obtain and read this publication for full details.

ACTIVITIES FEE

The activities fee, which is paid by all students, provides for the following activities which are under the Student Government Association: Publications, Class Dues, University Theater, Musical Activities and other general S.G.A. expenses.

BOOKS and SUPPLIES

Text books, school supplies and class materials as well as jewelry, stationery and novelty items are available at the Student Supply store, located in the basement of the Administration Building. The Maryland Book Exchange, opposite the South Gate, also handles books and supplies, both new and used. The Alpha Phi Omega Book Co-op, located in the Rossborough Inn, will be open shortly after the fall semester begins. It is operated on a non-profit basis.

CAMPUS DRESS

Informality is the rule for classes and daytime dress, cleanliness and neatness being the earmarks of good taste. Formals, jeans, swim suits, T-shirts and other athletic clothes are worn only upon appropriate occasions.

CLEAN-UP CAMPAIGN

"The Cleanest Campus in the Country" is the motto of the Maryland campus. Do your bit for the school by disposing of trash in the metal containers placed about the campus for your convenience.

COMMUNICATIONS

The Campus Post Office, which is located in the basement of the Administration Building, receives dispatches and delivers U. S. Mail, including parcel post packages. Postage stamps may be purchased but for all other postal services the student must go to the U. S. Post Office in College Park. This is situated on the Baltimore Boulevard just south of the main gate. The Campus Post Office provides a medium through which the administration and campus organizations may communicate with students; therefore, students should check their mail boxes daily, if possible.

Telegrams are delivered or telephoned to the residences of students. Outgoing telegrams may be sent at any pay station phone.

It is necessary to record any changes in address with the registrar so that any telegrams or special delivery letter can be delivered to you if they have your old address on them. If this is not done they cannot be delivered until your next class period.

Pay station telephones are available in the dormitories, Administration Building, Library, Recreation Building and Dairy Building. The Student Directory includes campus and local phone numbers of all students, as well as Administration extensions.

EATING

In addition to the Dining Hall, students will find meals on campus in the Cafeteria, located on the ground floor of the Dining Hall, and light meals and snacks in the Rec. Hall. Coke, cracker and candy machines are situated in the Ad Building Basement and in the Rec. Hall and dorms. In College Park there are several places to eat, of diverse caliber and price range.

INFIRMARY

All undergraduates may receive dispensary service and medical advice at the Infirmary, open six days a week from 8 a. m. 'til 1 p. m. and 2 p. m. 'til 4:30 p. m. and on Sunday from 10 a. m. 'til noon. A nurse is on duty twenty-four hours a day, and in emergencies students may call at any time. Doctor's hours are: Monday through Friday from 8 a. m. 'til 4:30 p. m., Saturdays from 9 a. m. 'til noon and Sundays and holidays from 10 a. m. 'til noon.

LAUNDRY

Each student is responsible for his or her own laundry. There are several reliable laundry and dry cleaning establishments in College Park; or, if a student prefers, he may send his laundry home. If they wish, students may do their own laundry with the exceptions of bed linen, in the laundry rooms of the dormitories.

LIBRARY

The Library and Library Annex are open from 7:30 a. m. 'til 10 p. m., Monday through Friday; 7:30 a. m. 'til 5 p. m., Saturday; and 3 'til 5 p. m., Sunday. Students desiring to withdraw books from the Reserve Room may do so at 8 p. m. on weekday evenings, returning the book at 8 a. m. the next morning, or at 1 p. m. Saturday, returning the book at 8 a. m. Monday morning. Books may be checked out at the Loan Desk on the second floor of the main building at any time. These books are returnable any time during the two-week period following withdrawal of the book. Overdue books are subject to a fine of five cents per day.

LIVING ACCOMMODATIONS

Miss Marian Johnson is in charge of on and off campus housing for women; Mr. Robert James is in charge of on campus housing for men and Mr. Doyle Royal is in charge of off campus housing for men and married students.

LOST and FOUND

Lost and found articles should be turned in at any office on campus or to the Campus Police Headquarters, located at the station house at the North Gate. Students who have lost articles should report here to recover them.

MEETING ROOMS

Agriculture Auditorium is located on the ground floor of the Ag Building, in the rear of the building.

Central Auditorium is located in the basement of the Education Building.

New Armory Lounge is located upstairs in the new Gym-Armory.

Recreation Hall Lounge is in the east end of the Recreation Building.

A-1 is between the BPA and A & S Buildings.

For details and other meeting places refer to Academic Regulations.

PUBLICATIONS DISTRIBUTION

The *Diamondback*, student newspaper, is available at stands in the Administration Building, the Arts and Science Building, the Engineering Building, the Library Lobby and the Rec. Hall on the days of publication, Tuesday and Friday, after 9 a. m. The *Old Line*, Maryland's humor magazine, is delivered to dormitories, fraternity and sorority houses and is available in the Ad Building basement and the Rec. Hall on the day of publication. Distribution of the yearbook, *Terrapin*, will be announced at the time of publication. All three publications are free to students as part of their activities fee.

RECREATION BUILDING

A lunch counter, tables, lounge for studying, facilities for pool and card playing, and publications are provided in the Rec. Hall, located next to the Women's Field House. Serving both daydodgers and resident students, the Rec. Hall is open 8 a. m. 'til 8 p. m. Monday through Saturday.

TICKET DISTRIBUTION

For most events students will be admitted simply by showing their student activities book and I D cards but for certain activities tickets must be obtained in advance by presenting your activities book and I D card at the designated distribution center. Tickets for the Navy football game may be had at the ticket window in the Coliseum, those for dramatic productions at the booth in the Education Building basement. For other events it will be announced in advance if tickets are needed.

TRAFFIC

Campus traffic is governed by the regulations set forth by the Campus Police Force, assisted in enforcement of these rules by members of the State Police Force. Cars on campus are restricted to designated parking areas, and students will be penalized if found abusing or violating these privileges. The parking lot spaces are allotted during registration.

TRANSPORTATION

Greyhound and Trailways Buses leave on convenient schedules to Washington and Baltimore, where other connections can be made by train or plane. Local bus and street car lines give rapid transportation to Hyattsville, Greenbelt, Branchville, Mount Rainier, Silver Spring, Cheverly and Takoma Park. These schedules may be procured by phoning the Capitol Transit Company or the Washington Suburban Line. For freight transportation the B. & O. Railroad runs through College Park.

Customs and Spirit

From bronze Testudo keeping guard in front of the Coliseum to the chimes in the tower of the Old Engineering Building, Maryland's campus stands as a tribute to higher education. As one of the oldest universities in the United States, it is steeped in spirit and tradition. The Tunnel, the Wishing Well, the historic Rossborough Inn, all are part of that tradition. They will be a part of your college career. The friendly "Hello Habit" which has always been a Maryland custom will quickly orient you. The pep rallies, convocations and games will heighten your growing school spirit. You will pass on the history and tradition of Maryland to those future generations who will inhabit the campus.

*"The Pause that Refreshes," a
must for every man and his
woman at Maryland U. . .*

History

The University of Maryland dates back to 1807 when the first school of the University, the College of Medicine, was founded in Baltimore. In the more than 140 years since its founding, the University has expanded both physically and in its standards of education, until it now occupies a position as one of the leading universities in the country.

After the College of Medicine was founded, there followed within a few years the establishment of several other professional schools to mark the first expansion of the University. The School of Law was added in 1823, the School of Dentistry in 1882, the School of Nursing in 1889, and in 1904, the Maryland College of Pharmacy completed the Baltimore additions.

At College Park, in 1856, Maryland State College, the first Agricultural college in the United States and the second in the western hemisphere, was established under the name of the Maryland Agricultural College. The college was financed by the sale of stock at \$25 a share.

In 1862, this college became, in part, a state institution with the passage of the Land Grant Act by Congress. It was one of the first schools to benefit from this act and subsequent federal aids to education.

In 1920, the professional schools of the University in Baltimore, and the Maryland State College in College Park were merged to form what is now known as the University of Maryland.

University Seal

Maryland's Great Seal, the oldest of the state seals, was sent to the province of Maryland in 1648 by Lord Baltimore. More than 300 years old, the seal is the only state seal of strictly heraldic character, for the other state seals bear emblems representing agriculture, commerce, or some related subjects.

The escutcheon bears the Calvert and Crossland arms quartered. The first and fourth quarters are the Calvert Arms. The second and third quarters are from the Crossland, Baltimore's maternal arms. An earl's coronet and full-faced helmet are surmounted on the quarterings. These indicate Lord Baltimore's rank in America. The Calvert crest rests on the helmet. The escutcheon is supported on one side by the figure of a farmer, and on the other by that of a fisherman—symbols of each of Lord Baltimore's estates, Maryland and Avalon. Below the figures is the scroll bearing the Calvert motto: "Fatti Maschii Parole Femine," which means "Deeds are males; words, female." On a border encircling the seal is the legend: University of Maryland, 1807.....1856.....1920.

Traditions

Maryland, like all colleges, has traditions that freshmen learn to love, and that others remember long after college days are over.

When you walk across the campus you will notice the "Hello Habit"—a friendly custom of speaking to the student you meet.

As soon as school starts, the football season begins; many traditions surround the Old Liner's love of sports and celebrations. Pep rallies before the game encourage school spirit; Testudo, the huge bronze mascot for the University who rests on his pedestal in front of the Coliseum, is found missing early in the season, is traced from school to school, and invariably returns just before a big game.

Homecoming highlights the fall season, when old grads return for the game, a queen is crowned, fraternity and sorority houses are resplendent with decorations, all the women wear chrysanthemums and everyone attends the Homecoming Dance. The annual Freshmen-Sophomore tug-of-war over Paint Branch Creek precedes the game.

The Rossborough Club presents its four formal dances during the year, featuring big-name bands from all over the country.

Incidentally, all freshmen are reminded that a penny in the wishing well at the Rossborough Inn is guaranteed to make one's fondest dreams come true!

The Autumn Carnival, with a musical revue, a queen and a dance, takes place later in the fall.

Throughout the year, All-Maryland dances, which are given free for the student body, are held. At Christmas time a pageant is held following the lighting of a Christmas tree. During the week preceding Christmas vacation, carols sound out on the campus between classes. These carols are sounded from the tower of Morrill Hall.

When spring comes, one of the important events is the Interfraternity Sing, followed by May Day, one of the most colorful spectacles at the University. The May Queen's Crowning, the tapping of outstanding junior women by Mortar Board, and a Pageant presented to entertain the Queen are among the occurrences.

At this time one of Maryland's keeuest rivals, Johns Hopkins, is encountered in the annual lacrosse game between the two schools. This event is one of the more rousing events of the athletic year.

Campaigning and electioneering for student government and class offices make very lively campus elections each spring.

The year is not complete without a visit to the Tunnel. Tradition had it that a couple must kiss on their first trip through this secluded spot.

Just before graduation the annual Honors and Awards Assembly is held, in which recognition of scholarship, sports, A.F.R.O.T.C., publications and other phases of University life is given.

With graduation exercises, the seniors leave the University life behind them but keep its memories in their hearts.

Administration

The Administration, headed by President of the University, Dr. H. C. Byrd, is composed of college deans, department heads, and personnel of the University. The general policies of the University of Maryland are the direct concern of this body. The Administration, the official spokesman of the University, represents the college to the public. The officials of the University will guide your college for the next four years. Avail yourself of the opportunity to meet them and to talk to them.

The Administration Building houses the offices of the President, Dean of Men, registrar, cashier and other offices of vital University concern. The S.G.A. office, Post Office, and book store which are located in this building serve as centers of between class activity.

TO MEMBERS OF THE FIRST YEAR CLASS:

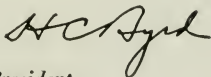

Beginning a freshman year in the University of Maryland is entering a new life. Theoretically, the University's educational program is attuned to the secondary school program. In one respect, this is the case, but in some other respects there is a wide gulf between the two.

The student entering the University finds himself in an almost completely independent position. Boys and girls suddenly become men and women. To you young men and women who are entering the University of Maryland I extend a welcome which not only holds for the present, but will last throughout the rest of your lives.

It is my job as President of the University, and the duty of all members of the Faculty and the Staff, to help you orient yourselves to new conditions. You will find that the upper class students, also, will be more than glad to aid you. Seek their help, ask the aid and direction of anybody that you see, when you do not know what to do. Ask freely any questions that you may wish to ask, even if some of them seem very simple.

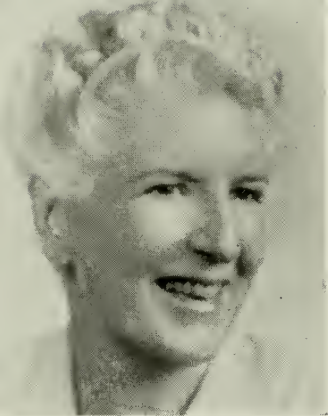

We all welcome you to the University of Maryland family, and as members of the University of Maryland family we are all mutually obligated to help one another. My office door is always open. If you feel, at any time, that you want my advice, walk in and such advice as I have to offer will be freely given.

My best wishes to you all.

A handwritten signature in dark ink, appearing to read "H. C. Byrd". The signature is fluid and cursive, with the first letters of each name being capitalized and prominent.

President.

It is a privilege and a pleasure to extend greetings and a hearty welcome to all new and returning students through the "M" Book. To those of you who are entering the University for the first time, may I say that the door of my office is always open to you.

You will find my office on the second floor of the Dean of Women's Building, and the offices of my assistants on the first floor. We are here to help you with your problems. A warm welcome awaits you from all of us, so stop by and get acquainted.

It is always a pleasure to welcome new students. We hope you make full use of all the University facilities for your complete, well rounded education and that you become a living part of the University of Maryland.

In college you must assume more individual responsibility for your education and there are available to assist you, advisors on matters pertaining to your studies, your social and moral life, vocational guidance and health. Become acquainted with these advisors and discuss your problems with them.

My office is located in the Administration Building and the members of my staff and I will be glad to have you drop in for an informal chat or to discuss with us any of your problems.

Student Government Association

The Student Government Association consists of three divisions: the Executive Council, the Men's League, and the Women's League. The Council is the supreme governing body; and the Leagues decide on and enforce all campus regulations.

Student activities are controlled by the S.G.A. and are financed for the most part by the activities fee which is paid by all students in the University. From this fee, the money is prorated to the various activities; the payment of this fee entitles a student to attend all S.G.A.-sponsored activities and the bi-monthly meetings. The actual work of S.G.A. is carried on by committees, the major ones being listed in the organizational chart on page 42.

**FRED
STONE**

S.G.A. President

It is with great pride that I welcome the freshmen and new students to the University of Maryland. On behalf of the Student Government Association, I would like to sincerely invite each of you to become an interested member of our organization, for only with your help and cooperation will the S.G.A. be able to grow and serve you better during your college life.

Through appropriations, the S.G.A. controls publications, choruses, University Theatre, and other campus activities. Your participation in these student organizations is expected and wanted, and your support of them is the immediate benefit you receive from the S.G.A.

Therefore, with the rest of the student body, may I extend to you best wishes for an instructive and stimulating four years.

Elections

Elections for Student Government Association and Class officers are held in the spring. Two votings take place—the primary and the final. In recent years Maryland's elections have come to be as colorfully flamboyant as national presidential elections. Any and all methods are used by candidates and their backers to secure votes.

About two weeks before elections, posters, pictures, and handbills begin to appear. Rallies and speeches are also part of the campaign to win votes. On the day of elections, circus animals, floats, and pretty girls appear to lure the voters to the polls. When election day is over, weary assistants count the votes, weary voters forget the matter, and weary candidates stay up till early morning hours to learn the results. Installation of the new officers takes place a few weeks later.

Constitution

The constitution of the Student Government Association has just recently been revised. The new constitution which was voted on by the students during the Spring of 1950 gives a better representation of the students on the group that governs them. Any student who wishes to read this constitution can obtain a copy at the Student Government Association office which is located in the basement of the Administration Building.

**Men's League
President**

Men's League extends to you a hearty welcome to the University of Maryland.

The Executive Council of the Men's League, working in conjunction with the Dean of Men, concerns itself with the problems of male students and the general improvement of the campus. We look forward to working with you, and any practical suggestions will be appreciated.

The Dormitory Council serves in a disciplinary capacity for all violators of the dormitory codes, which will be explained further in the following pages.

You will shortly elect a freshman representative to the League. Make certain he represents your views and ideas.

As your president and counselor, I would like to invite you to see me, or any other member of the League, about your problems.

Men's League

President HERB VITT
Vice President.....FRANK LONG

Men's League is the representative body which serves the men students of the University in its capacity as one of the three divisions of the Student Government Association. There are two divisions of the League—the Executive Council and the Dormitory Council.

The Executive Council functions directly for the benefit of the men students. It tries to maintain a high standard of living conditions in the dormitories and the campus. In this respect it attempts to gain the cooperation of the dormitory residents in keeping the maintenance and repair requirements as low as possible through careful and thoughtful use of the buildings and equipment.

The League works with the Dean of Men in planning dormitory improvements and additions which will make your stay at the University more comfortable and safe. Each year the Council awards a bronze cup to the outstanding male graduate, based on character, achievement, and service to the University.

The Executive Council is composed of the president, vice-president, and representatives of each class (all elected by the male student body), and a recording secretary, corresponding secretary, In-

terfraternity Council representative, Independent Student's Association representative, and the chairman of the Dormitory Council.

The Dormitory Council serves as a disciplinary board for offenders of the dormitory regulations and also works to encourage dormitory activity and comradeship through the proctors.

The proctors are older students who serve as advisors and counsellors to the students and maintain order and discipline in the dormitories. They see to it that quiet hours are observed in the evening for studying, that rooms are kept clean, that beds are made, and that health standards are in general upheld, that the other dormitory regulations are not broken, and that the dormitory is in good condition.

The housemothers help the proctors in their jobs and can be consulted at any time for advice on social and school problems. If you are puzzled about questions concerning campus life, they will be glad to assist you.

Only by getting to know your fellow dormitory residents and by associating with them socially will you derive the most from dormitory life. Living with a group of men of your own age and interests is a great experience and can add to your personality a social broadening that is obtainable nowhere else. Take part in your dormitory and campus activities and soon you will have accumulated riches worth far more than the time and effort put forth.

The Men's League office is located in Room 12 of Dormitory "O". Meetings are held every two weeks at which all men are welcome.

The following are some regulations of the men's dormitories:

Students will be held responsible for rooms being swept and kept clean at all times. Quiet hours will be observed from 7:30 p. m. to 7 a. m. except on Saturday nights. At no time will there be unnecessary noise or disorder in the dormitories.

Radios are not to be played so loud that they disturb others, and gambling and intoxicating beverages will not be permitted in the dormitories. Cooking, pets and firearms are also not allowed in the residences. The University is not responsible for money or other valuables left in rooms. Students are cautioned to keep their rooms locked at all times.

Public telephones are located in Dormitories E, G, L, Calvert Hall "A" Section, and in the temporary residences. There is a phone connected with the University switchboard in each of the dormitory offices. Any messages coming on the phone for students will be delivered to their rooms, but no student will be called to the telephone.

Students are held financially responsible for all damage to their rooms except depreciation by ordinary usage. Walls must not be defaced. Pennants, calendars, and the like may be displayed if scotch tape or stickers are used. No nails will be permitted.

**Women's League
President**

On behalf of the Women's League, I should like to extend a hearty welcome to you. One of the major objectives of the League, which deals with problems closely associated with women students, is to provide balanced and harmonious living with a minimum of regulation. The attainment of such a goal depends primarily upon you and your interest and participation in women's student government.

Please feel free to see us at any time in regard to your problems and suggestions.

Women's League

President HELENE COHEN

Vice President ANGIE GANSTER

Secretary NANCY ZIMMERMAN

Women's League is the representative body for the University's women students, and all women are members of the organization.

As a new student, you will find that you encounter the League often in your University life, for it formulates, administers, and interprets the rules governing women students. If you are a campus resident you will see the important role the League plays in dormitory life. It conducts house meetings, assists the dormitory housemothers, and handles violations of rules governing resident women.

Women's League also participates actively in campus programs. During the past year it has sponsored an All-Maryland Dance. It also works with junior women on May Day.

The League is a self-governing organization, with representatives from each house for women students on or near campus, and from the day-dodgers. The officers of the League are elected by the women students, and meetings are open to all women.

Business meetings are held once a week at which subjects vital to the women of the campus are discussed.

Rules, violations, judgments, plans for social calendars, consultations with the Dean of Women's office, and plans for various campus charity drives represent typical business of the organization.

At the present time, the Women's League constitution is under revision, but it is hoped that it will soon be ready to go into operation.

Each year the Women's League publishes a pamphlet of regulations concerning the women who live on campus. The regulations are revised annually by the League, under the guidance of the Dean of Women, to eliminate existing fallacies and to achieve a practical set of rules.

An important addition to the new constitution is the establishment of a Women's Student Government Association Executive Board. This will be composed of representatives and presidents of various organizations of interest to campus women. A Judicial Board is also provided for under the new constitution. The board is to consist of the president of W.S.G.A., two elected freshmen, sophomores, juniors, and seniors, and the faculty sponsor.

A third provision is for a Residence Council which shall be composed of House Presidents and House Directors and shall meet once weekly.

The League is chiefly concerned with campus residents, but it is interested in encouraging more active participation of the commuting women students. Under the new constitution these women will have more opportunity for taking part in campus life.

Women's League Rules

1. There will be no smoking at dances, in classrooms, or any other place on campus except in the following:
 - A. Rooms designated for smoking in the dormitories;
 - B. Rest rooms in the class buildings;
 - C. Drug stores.
2. Slacks, blue jeans, and shorts are to be worn only in active sports, in one's room, and when given special permission by the Office of the Dean of Women.

Honors

Now that you are beginning your college life, there is a goal for which you will want to strive . . . that of high scholarship. The rewards of this goal are many. It brings the respect of classmates as well as personal satisfaction. There is yet an added thrill . . . the initiation into an honorary or professional fraternity.

In the past year two new honorary organizations have been added to the ranks of those already on the University of Maryland campus, bringing the total number to twenty-seven.

Every year the most outstanding students in each field are tapped to take their place among those already wearing the key of achievement. Being tapped for an honorary or professional fraternity may provide one of the most memorable occasions of your college career.

Study Hints

As a college freshman, you will find the study habits you form now of greatest importance in the coming four years. "Planned and plenty" (two hours study for each hour of class is recommended for best results), good study habits bring results. Some points to help you get that point average are:

- 1—Have a study schedule and stick to it.
- 2—Have a definite place in which to study, a time with the fewest distractions possible.
- 3—Don't cram! Read the material before the lecture—you'll find class more interesting.

Freshman Awards

Each spring, before graduation, the annual Honors and Awards Assembly is held. At this time recognition is given to students who have excelled in scholarship, leadership, athletics, and service at the University. Among the presentations are several awards to freshmen to honor them for the accomplishments of their first year and to encourage them to continue their outstanding work on campus.

The Sigma Chi Cup is awarded to the man in the freshman class who makes the highest scholastic average during the first semester.

The Agriculture student in the freshman class who attains the highest average record in academic work is presented the Alpha Zeta Medal.

Omicron Nu, home economics honorary, presents an award to the freshman girl in the College of Home Economics who attains the highest scholastic average during the first semester.

Publications

The University of Maryland has four publications: the *Diamondback* newspaper, the *Old Line* magazine-the *Terrapin* annual, and the freshman *M Book*.

Each of these publications has repeatedly received outstanding awards from Pi Delta Epsilon, with both *Diamondback* and *Terrapin* achieving All-American rating for publications in their fields last year. All four are produced by the students and have the highest standard of interest, humor, and integrity.

All students are invited to apply for positions, and appointments are made after interest and ability has been shown in minor assignments.

Any suggestions from the student body will be appreciated by all publications.

Publications Board

The Publications Board is the faculty-student group which makes appointments and acts in an advisory capacity for all student publications.

The Publication Board is composed of four faculty members; the president of the Student Government Association; the President of Pi Delta Epsilon; National Journalistic Fraternity; and the editors of each of the Student Publications.

It meets at frequent intervals to discuss problems and policy.

Pi Delta Epsilon Award

Pi Delta Epsilon, honorary journalism fraternity which recognizes students who have done outstanding work on student publications, annually makes an award to the freshman voted most outstanding. The award, in the form of a cup, is presented to the freshman who has done the most for any of the student publications. Stan Rubenstein was last year's winner of the award, for outstanding work on the *Diamondback*.

The cup is usually presented during the annual spring banquet, sponsored by Pi Delta and featuring prominent speakers in the field of journalism.

The *M Book*, the freshman handbook, is published once a year for incoming freshmen. The staff, appointed in the late spring, spends the last weeks of the spring semester and the first few weeks of summer vacation in preparation of the book.

It is the sincere hope of the staff that all new students to the University of Maryland will read this book and that it will prove of value to them during their first few weeks on campus.

The *Diamondback*, non-biased student newspaper is published weekly on Tuesdays and Fridays. It serves to publicize campus activities, to express student opinions, and to serve as an outlet for students interested in journalism.

Last year the *Diamondback* was awarded All-American standing by the Associated Collegiate Press, and was also rated the best newspaper among colleges of more than 6,000 enrollment having membership in Pi Delta Epsilon.

The *Diamondback* staff welcomes any undergraduate who has worked on professional or non-professional papers. Inexperienced students wishing a position will be trained by older staff members. Offices are in the rear of the Recreation Building.

The *Terrapin*, student yearbook, presents a pictorial report on student life. Acting as both a written and graphic record of the year's activities, the *Terrapin* is awaited by the students as one of the highlights of the year.

Not only is it the Senior's book, but also a story of campus life as written by the students.

Staff membership is open to all interested students. Appointments to the major positions are made on the basis of interest and ability in the publications work.

Now beginning its seventeenth year of existence, the *Old Line*, literary and humor magazine, is without a doubt YOUR magazine. Designed to be enjoyed and produced by the students themselves, it caters only to the wants and desires of the Maryland students.

Changing with the fashions and moods of incoming editors with "revolutionary" ideas, the *Old Line* attempts to combine both ideas of humor, and of a serious nature—with emphasis on neither.

If you write, draw, or "business," the *Old Line* welcomes you. If it's funny the *Old Line* wants it; if it's sad submit it to the *Diamondback*. . .

University Catalogue

A separate catalogue is published for each of the eight colleges at College Park. A general catalogue contains the entrance requirements of the University and information on fees and facilities.

Catalogues of the colleges give the curricula of each and the requirements of the college for graduation. Included is a description of each of the courses offered.

Student Directory

A student directory is published by the University shortly after the beginning of the fall semester. It includes the names, years, colleges, home and local addresses, and local phone numbers, of all students.

The directory also gives the same information for members of the faculty and administration. Phone numbers of all campus offices are listed.

Maryland Magazine

The *Maryland Magazine* is published by the University six times a year. It includes articles about the University and members of the Alumni, for whom it is principally intended.

Students may buy copies at the Book Store or at local magazine stands. Catalogues and the Student Directory are available at the Book Store.

Drama and Music

The University of Maryland offers great possibilities for students who are interested in the fields of music and drama.

In the past year, student productions have received overwhelming acclaim at the University. This semester promises new opportunities in acting and backstage work for freshmen heeding the call of grease-paint and footlights.

Providing entertainment both on and off campus, the Men's Glee Club and the Women's Chorus are receiving increasing recognition and should prove a challenge to those students who enjoy choral singing.

The University also provides a cultural program bringing outstanding music and musicians to the campus.

University Theatre Staff

<i>President</i>	BERNHARD WORKS
<i>Vice-President</i>	JEAN NYBERG
<i>Secretary</i>	JOYCE MARMELSTEIN
<i>Business Manager</i>	PETE CAMPANELLI

The University Theater, composed of all persons who are active in play production, presents four major productions and two centrally staged experimental shows each year. Open try-outs are held before each production, to which all interested students are welcome.

All students who have worked satisfactorily on two major productions are eligible to join the University Theater. Backstage work, as well as acting, counts as credit toward membership.

The purpose of the organization is to present opportunities to students to learn all phases of play production and to provide experienced personnel for the handling of each show. All functions of the theatre are supervised by trained faculty members in conjunction with courses taught under the Department of Speech and Dramatic Arts.

During the past year, the University Theatre sponsored "The Glass Menagerie," "Cyrano de Bergerac," "Othello" and "My Sister Eileen." During the coming year, the group contemplates the production of "Julius Caesar," "Murder in the Cathedral," "The Silver Whistle," and "Dark of the Moon."

Women's Chorus

<i>President</i>	RUTH GATCHELL
<i>Vice President</i>	MARY LOU MCKINLEY
<i>Secretary</i>	SALLY BISSELL
<i>Treasurer</i>	ALISON McDERMID

The Women's Chorus, uniquely combining beauty and talent, is composed of women interested in singing as a group or with the Men's Glee Club. It is open to all women on campus. A mixer, radio and television shows, banquets, luncheons and other school activities rounded out the past year, climaxed by a combined banquet with the Men's Glee Club.

Men's Glee Club

<i>President</i>	EARL SPURRIER
<i>Vice-President</i>	BOB MILLER
<i>Secretary</i>	DAVE RICHARDS
<i>Treasurer</i>	JIM BOOKSTAVEN

The Men's Glee Club annually journeys to the Eastern Shore, giving concerts at each high school in the area. Outstanding events of the past year included concerts at Baltimore, Chevy Chase, and at Walter Reed Hospital. The group presented Handel's Messiah with the University Orchestra at Christmas. The Glee Club is open to all men on campus.

The University Band

<i>President</i>	HOWLAND FISK
<i>Vice-President</i>	EMANUEL J. PICEK
<i>Secretary</i>	BRUCE BALL

Mr. Sykora, band director, and his conscientious group of musicians perform at all football games, pep rallies, and musical shows. The band continues to grow each year with more and more students joining, by going to the second floor of the armory for an interview. The band plays not only for the campus, but travels to other cities to perform. Last year, Forest Park and Baltimore Polytechnic High Schools, the Marlboro Tobacco Festival, Hagerstown Mummers Parade, and the Bethesda parade were included in the band's itinerary.

The University Orchestra

<i>President</i>	CLINTON P. THOMPSON
<i>Vice-President</i>	NORMAN WILLIAMS
<i>Secretary</i>	CATHERINE SMITH

Students interested in playing classical music are urged to join the school orchestra. Anyone with orchestral experience is welcome. The orchestra participated in two school concerts last year: Handel's Messiah and Sweethearts. Rounding out the year was an appearance at an education lecture given by Dr. Spack. Interested in strictly classical music, the orchestra is trying to develop the interest of the student body along this line.

The Clef and Key

<i>President</i>	BILL HOBSON
<i>Vice-President</i>	RAY HILL
<i>Secretary</i>	MARY ANN ELTING
<i>Treasurer</i>	ROY KLINGBURG

The object of Clef and Key is to give every student who is musically inclined a chance to display his talent. Other students who boast mainly interest are also welcome to help on productions. Publicity, lights, costumes, and stage crews are all necessary. Last year, this growing organization presented "Sweethearts" and gave excerpts from the "Mikado" at All Maryland Night.

Creative Dance Group

<i>President</i>	IRWIN DERMER
<i>Vice-President</i>	FELICE FEDDER
<i>Secretary</i>	MARY ALICE LARSON
<i>Treasurer</i>	RUTH MALBERT

In addition to participation in May Day activities every year, the Creative Dance Group puts on several special programs and an annual concert. They performed during All Maryland Night during the past year.

Student Musical Activities Committee

This committee is composed of the presidents of the Band, the Men's Glee Club, Women's Chorus, the Orchestra, and the Clef and Key. Its main function is to act as coordinator of the music budget. The chairman and secretary of this committee are chosen at the beginning of each year.

Military

First the Wright brothers made history in College Park, and now the Air Force Reserve Officers Training Corps has set a record by being the largest AFROTC unit in the United States.

This will make another chapter in the air history of College Park which was the site of the first military air field in the United States.

The mission of the AFROTC is to provide a basic course in military training and "to develop in prospective college graduates the qualities of leadership and other attributes essential to progressive advancement to positions of increasing responsibility as commissioned officers" in the Regular Air Force, Air Force Reserve, and the Air National Guard.

The Pershing Rifles .

Proficiency in drill is the aim of the Pershing Rifles. The Maryland Pershing Rifle Company, a member of the national organization with units in schools throughout the country, has repeatedly won honors in competition. The members can be distinguished by their blue and white lanyards and white gloves. They are often called upon to act as color guards and as ushers for important occasions. In addition to the annual drill competition in the spring, the Pershing Rifles give several smokers and a dance for their members and pledges.

<i>Captain</i>	DON W. FULCHER
<i>1st Lieutenant</i>	ARTHUR L. PEASE

<i>Executive Officer</i>	JOHN B. WOODALL
<i>Faculty Advisor</i>	CAPTAIN DUNN

AFROTC Band

Under the leadership of Professor Frank Sykora the AFROTC band provides the music for reviews and parades of the AFROTC. Open to basic students with ability to play musical instruments, its members can be recognized by their black and gold lanyards. Besides rendering martial airs for marching units, the band has in the past given excellent concerts as well.

Organizations

Organizations at the University of Maryland welcome you. No matter where your interests lie, there is a group for you. Choose a club, whether it be departmental, athletic, religious or social and give it your wholehearted support, and you in return will receive some of your most enjoyable memories of college life.

It is in these groups that students meet others with similar interests, learn to plan, produce, and participate in programs, and have a wonderful time. Paralleling the academic life, the extra-curricular life of Maryland students provides them with experience and a worthwhile manner of spending much of their spare time.

Membership in organizations will make you a part of this, our university.

Student Life Committee

The connecting link between the student body and the University administration on the Maryland campus is the Student Life Committee, appointed by the President of the University and headed by Dean James H. Reid. Composed of those faculty members who are actively interested in student affairs, it keeps a strict vigilance on all activities, functioning in an advisory capacity and attempting to improve any unsatisfactory conditions that may arise on the campus.

To be active on campus, all organizations must be recognized by the Student Life Committee. In approving campus organizations, the committee encourages clubs that will not be in direct competition with one another. The Committee aids the social director, Miss Leslie, in the management of social affairs.

The other Committee members are: Prof. Allen, Dean Eppley, Dr. Harmon, Mr. James, Prof. Kramer, Miss Leslie, Prof. Newell, Prof. Outhouse, Miss Preinkert, Dean Stamp, Coach Tatum, and Dr. White.

Religion

Did you enjoy Young People's meetings in your high school years? Or do you look forward to the new experience of participation in worship services, sharing the fellowship of those of your religious faith as you meet for devotions, round table discussions, singing, and recreation periods? To you who are commencing or continuing the activities to which religious youth today aspires, the University extends the hand of fellowship and spiritual opportunity.

Religious life on campus has evolved on a large scale through the increased organization of students of every faith; interdenominational understanding has been fostered by the institution of new worship services and religious activities.

*Artist's sketch of the new chapel,
to be built in the near future. ►*

Religion In Life Week

Although religious activities are an integral part of University life throughout the year, one week has been set aside during each year to emphasize the spiritual—to concentrate on the value received from the various faiths.

Last year, Religion in Life Week was opened with an interfaith service. Following this there were church services, teas, suppers, and vesper services. Arrangements were also made for individual conferences, and counselling facilities were available.

Highlighting the week were visits of 22 outstanding speakers. These visitors talked to the religious clubs, attended dinners and "firesides" at dormitories, fraternities and sororities, and conducted forums and seminars.

Members of all faiths gathered on the Quadrangle to climax the week with a Friendship Circle by candlelight.

Religious Counsellor's Office

Religious guidance and information of campus and nearby church services are available in the Religious Counsellor's office in the basement of the Administration Building.

Religious Life Committee

One of the first groups to meet you at Maryland will be the Religious Life Committee at the Religious Life Reception in October, 1950. The Committee arranges for the traditional Christmas music played from Morrill Hall between classes during the week before Christmas. Religion in Life Week, sponsored by the Committee, will be held from March 2nd to March 7th. It will include a series of firesides and religious services for students of all faiths and nationalities. The faculty also guides the development of religious life on campus. Assistant Dean of Women Rosalie Leslie is chairman.

Services

Although construction has not yet begun on the new interfaith chapel, there are many opportunities at Maryland for worship. Weekly nightcap devotions are held in the women's dormitories. The following services are held every Sunday:

11:00 a. m.—Protestant Church Service—

Agricultural Auditorium.

University Methodist Church Service—New Armory Lounge.

Catholic Mass—Building EE.

Episcopal Church Service—

St. Andrew's Episcopal Church,
College Park.

Fraternities

In a few weeks, the doors of the Greek letter organizations will swing open and rushing will again be underway. The decision concerning fraternities represents an important crossroad in your college life, and your choice, consequently, should be made with great care. In fairness to yourself, do not be "high-pressured" into committing yourself to one fraternity without visiting others. Know the financial setup of the fraternity in which you are interested. Attempt to meet all of the brothers at the rush functions before committing yourself.

Do not feel that you are a social outcast if you fail to receive a bid from the fraternity of your choice. Because of the large numbers of rushees, fraternities must make snap judgments. If you fail the first time, don't be discouraged, try again.

Fraternity Criteria

The National Interfraternity Conference was founded in 1908 for the purpose of discussing questions of mutual interest and to make such recommendations from time to time as it deems wise. It is composed of sixty-four national fraternities which meet strict qualifications for membership. Its annual conferences are attended by about three hundred and fifty officers and alumni of the various fraternities and about fifty deans of men and college presidents. It sponsors the National Undergraduate Councils on campuses all over the United States and Canada, which meet in conjunction with the Conference itself. It publishes a Year Book, the report of its annual meeting, in which much valuable information about college fraternity life is included.

In the fall of 1934, the Executive Committee of the Conference and the Educational Advisory Council reduced to writing the following criteria in order further to advance co-operation between fraternities and educational institutions. The statement was subsequently approved by the American Association of Deans and Advisers of Men and by the Conference itself. It reads as follows:

We consider the fraternity responsible for a positive contribution to the primary functions of the colleges and universities, and therefore under an obligation to encourage the most complete personal development of its members: intellectual, physical and social. Therefore, we declare:

1. That the objectives and activities of the fraternity should be in entire accord with the aims and purposes of the institutions at which it has chapters.

2. That the primary loyalty and responsibility of a student in his relations with his institution are to the institution, and that the association of any group of students as a chapter of a fraternity involves the definite responsibility of the group for the conduct of the individual.

3. That the fraternity should promote conduct consistent with good morals and good taste.

4. That the fraternity should create an atmosphere which will stimulate substantial intellectual progress and superior intellectual achievement.

5. That the fraternity should maintain sanitary, safe and wholesome physical conditions in the chapter house.

6. That the fraternity should inculcate principles of sound business practice both in chapter finances and in the business relations of its members.

These criteria should be applied in close co-operation with the administrative authorities of the institution. Detailed methods of application will necessarily vary in accordance with local conditions. It is the purpose of the National Interfraternity Conference to offer detailed suggestions, after further study and investigation, regarding practical steps to make this co-operation effective.

<i>Secretary</i>	ED WILLIAMS
<i>Treasurer</i>	CHUCK LEE

The local chapter of the Interfraternity Council was founded in 1926 for the purpose of maintaining harmonious relations between the University and the fraternities and among the fraternities themselves. Duties of the Council are strict supervision of rushing, and improvement of the fraternity system.

On the agenda of the Council's social program are the Interfraternity dance, and the annual interfraternity athletic program. Each year the Council presents scholarship and activities cups to the fraternities which are outstanding in these fields of endeavor.

The Council also contributes to the support of a war orphan in Europe as part of its charity functions. As part of its rushing supervision the Council helps to introduce the students to fraternity policies and customs.

Sororities

To most girls, the social side of college life is represented by a sorority. On the 17th of September many of you will be knocking upon the door of close friendship and group enjoyment. Remember to be natural. Don't allow yourself to be awed by large houses or big groups; rather, choose personalities which please you. Be sure that you can meet the financial obligations of the sorority of your choice.

If you do not "make" the sorority of your choice, don't be disheartened. Sororities are limited by a quota system and therefore sometimes overlook potentially fine members. Show that you are interested, and, above all, remember that your success or failure in college depends not upon a sorority, but upon yourself.

Panhellenic Council

<i>President</i>	JEAN ASKIN
<i>Vice-President</i>	MARY LOU MCKINLEY
<i>Secretary</i>	JANE BLUNT
<i>Treasurer</i>	EILEEN BERNHARDT

The purpose of the Panhellenic Council is the maintenance of a wholesome sorority spirit and inter-sorority relations within the University, to further sound scholarship and high social standards, and to compile rules governing rushing, pledging, and initiation.

Important Rush Rules

All sorority women and students interested in rushing should be thoroughly familiar with these rules and should adhere to them at all times.

Formal rushing is that period beginning with the open house teas and continuing until pledging. Rushees shall be entertained at sorority houses only at designated times during formal rush week. Alpha Epsilon Phi and Phi Sigma Sigma will begin rushing several days later to avoid conflicting with the Yom Kippur Holidays.

Neither men nor non-sorority women nor alumnae may be present at any rush functions. No eligible students shall be allowed in sorority houses during formal rushing except during specified rush functions.

No sorority women shall be allowed to enter the dormitories where the new students are residing un-

less she is living there also. No rushee shall be treated outside of the sorority.

Standard Panhellenic Rules

Any woman student who is eligible for matriculation at the University and is unaffiliated with any National Panhellenic Fraternity is eligible for formal rushing.

Students in the University summer school are ineligible for rushing until September when sororities become active. A pledge expires one calendar year from the date of pledging at which time the student is eligible for pledging another sorority.

During rush week, if a girl expresses her preference in writing, or formally accepts a bid, or wears the colors of a sorority during open rushing following rush week, she is ineligible for pledging another sorority, whether or not she has been through formal service.

A pledge who is released by a chapter at any time during her pledge year, or who breaks her pledge, is ineligible for pledging a sorority until one calendar year from the date on which her pledge was broken. This regulation is binding regardless of the campus on which the student may be enrolled.

Pledges who have completed fifteen credit hours in the preceding semester in the University with at least a C average who have no failures on their record for that semester, who are resident students in good standing, and who have been cleared with the Dean of Women's office may be initiated into a sorority.

Athletics

Athletics, inter-collegiate and intra-mural, are very much a part of the life of a Maryland student. He may be the star halfback of the varsity football team, or he may be on the frosh basketball team, or he may be the last man in the intra-mural cross country run. If you are potentially an All-American or just one who enjoys sports, there is a place for you on an athletic team. The facilities are here, but you must have the incentive.

The Council on Intercollegiate Athletics, with Geary Eppley its chairman, supervises all athletics at the University. Maryland is a member of the Southern Conference, the National Collegiate Athletic Association, and the United States Intercollegiate Lacrosse Association.

Bob Ward, varsity guard, is carried triumphantly from the field after a 44-7 victory over South Carolina at Homecoming.

BIG YEAR IN SPORTS

Maryland's varsity teams had a great 1949-50 record, winning 89 contests, losing 43 and tying two for an overall mark of .674. Every team finished on the right side of the ledger except for basketball. Here are the records:

Maryland had its greatest football season in history in winning eight of nine regular season games and easily defeating Missouri, 20-7, in the Gator Bowl tilt at Jacksonville, Fla., on January 2. The team also set a record for scoring, gathering 247 points in its nine tilts.

Conspicuous on the team, that was fifth in total defense in the country, were Ray Krouse, second all-American tackle; Bob Ward, all-Southern guard; Elmer Wingate, end, and Mighty Mo Modzelewski, halfback.

While ten men were lost from the 1949 squad ample replacements came up from the Frosh and the 1950 outfit should be as good, if not better, than the great eleven of last season.

Soccer

The varsity soccer team finished a very successful season with a record of eight wins and two losses. The two losses were to the strong teams of Temple and Penn State by one point.

Maryland won the Southern Conference title last year by winning all three of its conference games. Jim Belt was chosen on the All-American soccer team, and was given help throughout the season by John Linz, Eddie Rieder, and Gene Volpe.

BUD MILLIKAN

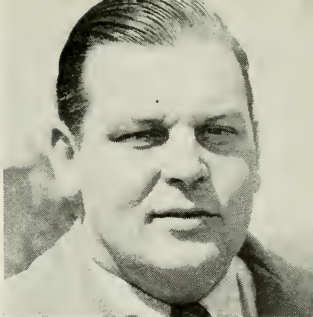

Basketball

The basketeers will start their 1950-51 campaign under a new coach. He is Bud Millikan, a product of the famous Hank Iba's Oklahoma Aggie teams. He is a personable, serious-minded and hard-working comparative youngster, who, in due time, should revive Maryland's forces.

Millikan, however, sees a tough task ahead to get the Terp quintet off on the right foot in his first season. He's far from being a pessimist but he's just looking the situation straight in the face. He comes to College Park with a fine coaching record, being successful at two high schools after leaving his alma mater. His last stand was at Newton, Iowa, High where his 1949-50 quint had a 17-3 mark and won its conference crown.

Flucie Stewart, whose team won only seven of 25 games last season, is devoting his full time as end coach of the football team. His quint lost many close games in a campaign highlighted by a victory over a strong Georgetown five, registering almost as many total points as its opponents.

Wrestling Coach
"SULLY" KROUSE

Wrestling

Coached by William "Sully" Krouse, the varsity grapplers had a season of five victories and three defeats. At times Coach Krouse had to fill gaps by moving his smaller men to heavier weight brackets. Using this system, the team finished third in the Southern Conference Tourney with Ray Lysakowski and Jim Scott reaching the finals.

Baseball Coach
H. BURTON SHIPLEY

Baseball

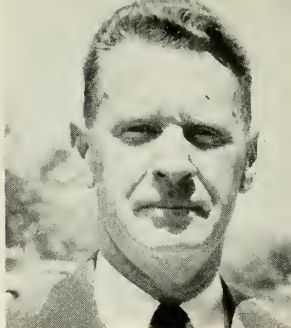

The baseball team, with H. Burton Shipley as the coach for the twenty-seventh consecutive season, won more games during the 1950 campaign than in any other year. His potent charges captured eighteen tilts and lost only seven for a winning percentage of .720.

This however, strictly from a percentage standpoint, was not quite up to two earlier seasons when his teams won fourteen times against five defeats for an average of .737. He previously has won his most games in a year when he captured sixteen and lost six.

Michigan was the only nine to conquer the Terps that was not licked, as the Shipley men broke even with the other six other that beat them. They beat Georgetown twice, split with George Washington and licked Navy to win the mythical area crown.

Maryland qualified as one of the four teams to play for the Southern Conference title and was the runner-up. It whipped Virginia Tech and Clemson but lost out to the title-winning Wake Forest Club.

Lacrosse Coach
JACK FABER

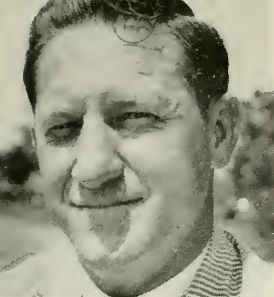

Lacrosse

The varsity stickmen had a season record of six victories and four losses in collegiate circles.

Highlight of the campaign was an 8-7 victory over Army. Charley Herbert, Bob Moulden and Hank Lowry were prominent for the South in the All-Star game with the North.

Tennis Coach
DOYLE ROYAL

Tennis

The tennis team was the second best in the history of the University. It finished the season with a record of eleven wins against two losses and defeated all its rivals in the Maryland and District of Columbia areas.

Track Coach
JIM KEHOE

Track

For the second straight year both Jim Kehoe's track and cross country teams boasted undefeated seasons. The track team beat Navy for the third consecutive year. Karl Rubach set a new University record of 14.6 for the 120 high hurdles and John Unterkofler smashed the shot-put mark with a heave of 49 feet $7\frac{3}{4}$ inches.

Rifle Coach
HARLAND GRISWOLD

Rifle

The loss of Arthur Cook, the National and Olympic champion, and other stars, was reflected in Coach Griswold's sharpshooters. At that the team won eight of its eleven matches.

Walter Harrison was picked for the second All-American team. It was the first time in years that Maryland did not have a marksman on the first team.

Anyone is eligible to try out for the team. Maryland has perhaps the best indoor rifle range in the country and the team knows how to use it. All AFROTC students may fire for the Hearst trophy.

Freshman Sports

Every freshman is invited to try out for the sport he likes best. Everyone has a chance to make the team. High school press notices are not needed, for it is performance which decides. The Freshman football team begins practice immediately after registration and there will be ample notice of the first gathering for all other sports.

Although the schedules for freshman teams are limited, they are given every encouragement and provided with able coaches. How they are handled, of course, means much to the varsity squads of the following year. Every yearling not only is welcome to try for any sport he may choose but he is urged to take part in some competition.

Frosh Football

Coach Bill Meek led his freshman charges through a very good season. The record book shows four victories and only one loss. The squad played such teams as Fork Union, Georgetown, West Virginia, North Carolina, and George Washington. The "Little Terps" were undefeated until the last game of the season when they dropped a close tilt to George Washington by the score of 18-13. Jack Searbath and Bob De Stefano did the signal calling for such backfield aces as Joe Petruzzo and Ed Fullerton. The line was bulwarked by Bob Morgan and Dick Modzelewski. You will hear more of these men in the varsity games this fall.

Frosh Track

While not collectively too strong, the yearling track squad will send the varsity such runners as Wayne DeMoss and George Burklin, sprinters, and Bob Clancy and Thorton Coss, quartermilers. But what excited Coach Jim Kehoe most was the 22 foot 2 inch broad jump by John Alderton of Cumberland just after the grid end had finished spring football practice.

Frosh Soccer

Coach Dick Cleveland developed some good talent for the varsity in an abbreviated but successful season. It was only the second time since the war that a frosh squad was fielded. Cleveland, incidentally, was one of the best players ever to play at Maryland.

Frosh Wrestling

Although taking part in a limited number of matches, the frosh did well enough to satisfy Coach "Sully" Krouse, and for him to find some ace prospects for his varsity outfit. Leo Tinnanoff, Bernie Chmielewski and Jack Shannahan showed unusual promise.

Frosh Boxing

Coach³ Frank Cronin's young mittmen won all three of their matches, handily defeating the Virginia yearlings, Fairfax High and Charlotte Hall Military Academy. He discovered a number of good scrapers, including Bob Theofold, a nifty 145 pounder; Lindy Dye, 165, and Cal Quinstedt, heavyweight.

Frosh Baseball

Al Pobiak, who tutored the yearling diamonddeers, will provide the varsity with much good talent. Included in the array are George Hume and Dick McKenzie, pitchers; Don Baranick and Gene Giuseppe, catchers; Infielders Victor Jungk, who got six hits in one game, and Jack Scarbath; and Joe Petruzzo and John Howard, outfielders. Petruzzo is rated a sure shot as a sophomore next spring.

Frosh Basketball

Although the rookie tossers, handled by Burris Husman, did no better than break even in 14 games, the squad was not devoid of promising players. Three newcomers pleased Bud Millikan, new varsity coach, in his brief drills in May. They were Sam Towne, Tom Connelly and Johnny Strachan, and he feels some of the others who will be sophs this fall may develop. Towne stands 6 feet 4 inches in his stocking feet.

Frosh Rifle

While Col. Griswold did not name them specifically, he has high hopes for a number of his rookie marksmen, and, losing only one man from the first string of 1949-50, looks toward the next season with much confidence. Just a few good replacements would make the Terp team the power of old.

Frosh Tennis

Coach Doyle Royal got little hope for bolstering his varsity net squad of 1951 from the freshmen aggregation. It did not have a successful campaign and there were no reports of any individual brilliance among the players, and Royal badly needs replacements.

Frosh Lacrosse

Tommy Mont, former all-around Maryland athlete, coached the frosh to four victories in six games, and will give the 1951 gig team a good lift. His main contributions will be Jim Strott, Dick Allen and Bob Mahon, attack men; and Jack Shannahan, Wedd Chamberlain and Dick Harryman, midfielders. It is the attacking trio that impressed and is needed most by the varsity.

Frosh Golf

Only one match was played by the yearling linksmen and that was lost to the Navy Plebes by a 4 to 2 score. However, Bob Fitzgerald, John Smart and Bill Haynes showed great promise and Coach Frank Cronin of the Varsity is confident they will be of much help to him next spring.

Men's Intramurals

The Intramural Department tries to formulate a policy that will cover all the requirements of the student body.

Jim Kehoe is the director of the program, and the following sports have been put in the program: badminton, basketball, baseball, foul shooting, boxing, bowling, cross country, golf, gymnastics, horseshoes, softball, table tennis, touch football, track, volleyball, and wrestling. There are well over 60 teams in competition. Fraternity and non-fraternity men are eligible to compete. Coaches of varsity squads often attend these contests looking for promising material.

Often, winners of various events challenge intramural teams from colleges in the area. This adds to the feeling of varsity competition.

There are two divisions in the men's intramurals—an open division anyone can enter, and a fraternity division, for fraternity men only. A cup is presented each year to the fraternity which has amassed the most points. Medals, gold for the first place team members and silver for the second place team, are presented for each sport.

Women's Director
DOROTHY DEACH

Women's Intramurals

The intramural program for women was established by the Women's Physical Education Department. The Department is given assistance by the Women's Recreational Association, a student organization composed of physical education majors.

The program is set up to insure activities starting shortly after registration and lasting through May. These activities include all popular sports. Miss Dorothy Deach is in charge of all women's intramurals.

Tournaments are held each year in hockey, bowling, basketball, volleyball and badminton, sponsored by the Women's Recreational Association. The sororities, the women's dormitories, daydodgers, and faculty enter teams in these contests and a campus championship is determined in each sport.

Maryland Songs and Cheers

An important part of any school or college is its songs and cheer tradition. The University of Maryland is no exception to the rule. Freshmen are urged to learn the words and music of the following, the most important and often-used songs and cheers. You'll want to be able to fully participate in cheering for your Alma Mater at the games this fall.

The Cheerleaders

Chairman JOE HORAN

Maryland spirit is typified by the battery of cheerleaders who conduct the Terp student body in their songs and cheers. On their shoulders is the responsibility of instilling the traditional Maryland spirit throughout the campus. Cheerleaders work in close cooperation with the Student Activities Committee. Tryouts for the squad are held at the beginning of each football season.

The Student Activities Committee

Co-Chairmen BILL KENNEDY
.....PAUL NARGIZ

The Student Activities Committee organizes and stages the giant pep-rallies, parades, and team send-offs that are an important part of campus life.

This organization is open to all interested workers and holds meetings on Tuesday evenings throughout the year.

Songs

Alma Mater

Words and music by Robert Kinney, '40

Hail! Alma Mater!
Hail to thee, Maryland!
Steadfast in loyalty,
For thee we stand.
Love for the Black and Gold
Deep in our hearts we hold,
Singing thy praise forever,
Throughout the land.

Sons of Old Maryland

Sons of old Maryland
Old Maryland needs you!
Stand by your colors, boys,
And to them e'er be true!
Fight for old Maryland,
Old Liners stand,
Defenders of the Black and Gold
Throughout the land!

Victory Song

Maryland, we're all behind you,
Wave high the Black and Gold.
For there is nothing half so glorious
As to see our team victorious.
We've got the team, boys,
We've got the steam, boys,
So keep on fighting, don't give in!
M-A-R-Y-L-A-N-D—(yell)
Maryland will win!

Maryland

Tune: Madelon

In the very heart of Maryland
In the heart of every Maryland man,
There's a spirit so endearing
It will win your heart and head.
She doth hold the sway,
She will win the day,
And her glorious men will ever win the
fray.

Then it's Hurrah! Hurrah! for Maryland!
Then it's Hurrah! Hurrah! for U. of M.!
With our banners ever streaming high.
We will always win or die.
Never forget the glories of the past,
Carry on triumphant to the last,
For we love, we love old Maryland.
Hurrah! Hurrah! Hurrah!

Terrapin Drinking Song

Music by Wilmer Orpwood, Jr. '43

Words by A. Manley Powell, '41

Drink to the Terrapin!

All bold hearted men.

We have no fear of hell,

For we're loyal sons of fellows,

Drink to the Terrapin!

May God bless her sons!

When the toast is in the cup,

Bottoms up! Bottoms up!

To Maryland.

Terrapin on Parade

Chorus:

For we're Terrapins On Parade,

Flying colors that never fade:

Heads so proud and high as the band
goes by,

We will do or we will die.

With the beat beat of marching feet,

And the rum' rum' of the drums,

Join us, sons and daughters of old

Ches'peak's waters,

We're the Terrapins On Parade.

Cheers
